Escenario:

Your Spanish teacher is so passionate about learning Spanish that she would like more students at Providence Day to study the language. She has convinced our principal that there should be a Spanish-language news report on the topic that can be shown at an assembly. Each of you have been given a topic for a video report and yours is high school relationships. Your video should include:

- What makes someone a good friend
- What makes someone a bad friend
- What is the ideal relationship

You may decide to include relationships of people you know in school to show examples of good friends and ideal relationships.
