Questions to ask when reviewing DYO Data in our teams

- Are there teaching points you would like to teach into during your next writing unit/project (including roundtable papers) based on this data?

- If possible, can you create groupings of students who need specific intervention or enrichment lessons during your next writing unit?

- What accounted for the strengths in your students writing so far?

- What accounts for the weaknesses? What PD do we need (ex. grammar and vocabulary) next year?

- Now that DYO #__ is over, what percentage of your students (by class) have reached mastery in each category at least once this year, so far?
