

Goal Setting

During the first quarter, we developed our working agreements together and have spent a great deal of time thinking about our strengths as well as areas we need to improve on. Please think about our working agreements, and then answer the following questions. Be sure to be specific and give examples and evidence to back up your answers.

1. Please identify an area in which you've been successful. Give a specific example.

2. Please identify an area you are struggling with and explain what confuses you. Be specific.
