**Performance Task Title:**
**Content Area:**
**Grade-Level:**
**Duration:**

### Standards to be Assessed (3-5 standards):
Identify specific Standards of Learning (CCSS or SOLs).

### Learning Target/Assessment Goal:
Identify the observable or measurable outcomes desired.

### Assessment Task Description (Situation):
*What is a meaningful context for students to consider in completing this task?*

### Acceptable Product(s) and/or Performance:
*What will students produce as evidence of attainment of outcomes?*

## Performance Task Template

### Authentic Audience:
The audience comprises an individual(s) interested in the findings and products that students create. They may score and or provide feedback about student performances based upon the products and presentations made.

### Student Role(s):
The Role provides the student with the opportunity to assume the career role or job associated with accomplishing the goal of the performance task.

### Student Task Instructions:
*How will students complete this performance task? What activities will they do and to which standards and outcomes are they connected? What is the timeline? What materials or resources will they need?*

You may use the Backward Design Planning Tool below to organize formative assessments and lessons/scaffolds for each learning goal.
